Precipitation: .26"

Average October Temp Nogales, AZ: 82F (High) 44F (Low)  
Average November Temp Nogales, AZ: 72F (High) 33F (Low)

---

### Notes:

Temperature on the coast from LA to San Diego is mild and constant with low chance of rainfall.

**We can walk most of the way from Long Beach to San Diego on side roads off of PCH. From San Diego to Yuma, we take side roads off of HWY 8. We are allowed to walk on HWY 8 in Arizona, but not in California. There are side roads just off HWY 8, not reflected on the**

**map, that we will be able to take in lieu of what is shown on the google walking maps.**

As we head inland the temperature increases during the day and decreases at night. This is fine through Nogales as long as we don't go too far into November. It may be better as temperatures drop at night to walk in the evening, 12 AM to 8-10 AM, etc.
